

# Huawei Bahrain Energy Storage

## Overview

---

At the summit, Huawei Digital Power signed a key contract with SEPCOIII for the Red Sea Project with 400 MW PV plus 1300 MWh battery energy storage solution (BESS), which is currently the world's largest energy storage project. HUAWEI FusionSolar advocates green power generation and reduces carbon emissions. It provides smart PV solutions for residential, commercial, industrial, utility scale, energy storage systems, and microgrids. It builds a product ecosystem centered on solar inverters, charge controllers, and energy. Huawei Photovoltaic Energy Storage Power Station Project Huawei is leading a groundbreaking photovoltaic energy storage project featuring a 400MW solar PV system coupled with a. The project will install a 400 megawatt (MW) photovoltaic system along with a 1300 megawatt-hour (MWh) battery energy storage. Bahrain Energy Storage Systems Market, valued at USD 160 million, is growing with demand for solar PV integration and energy efficiency under national plans.
