

# Huawei Indonesia Energy Storage Project

## Overview

---

Huawei, together with its channel partner JJ LAPP, showcased innovations in the energy storage system (ESS) and smart string inverters at Solartech Indonesia 2022. Huawei is honored to contribute to Indonesia's low carbon development with its field-proven Smart PV. To produce up to 99GWh of solar energy annually. This clean energy generation is expected to offset system for utility-scale solar power plants. Leveraging power electronics and digital technologies, Huawei provides electricity. Jakarta, Gizmologi - Huawei formalized its cooperation with PLN Nusantara Power by signing a Memorandum of Understanding (MoU) in Jakarta (22/11). The cooperation between the two companies includes the implementation Proof of Concept and research on battery energy storage systems (BESS) in JAKARTA SUN Energy and Huawei Indonesia are collaborating to encourage the development of solar energy systems so that they can become efficient energy solutions, especially for the commercial and industrial sectors.

## Huawei Indonesia Energy Storage Project

Application scenarios of energy storage battery products

### Pertamina NRE And Huawei Join Forces To Advance Renewable ...

Pertamina New & Renewable Energy (Pertamina NRE) partners with Huawei Technologies Co., Ltd. to drive innovation in smart grid, distributed generation, and digitalization for ...
