

Huawei energy storage battery each 5 kWh

Overview

Each Huawei LUNA2000-5-E0 battery (separate module) has a capacity of 5 kWh and has a built-in optimizer that manages it independently of the other batteries in the system (charging and discharging). When one of the batteries is aged or limited, the others work optimally for maximum. With Huawei Smart String Energy Storage System, you can power your life by green power storage and be astonished by its admirable performance. No matter nights, rainy days or unexpected blackouts off the grid, the solar power is always at your request as a real bank. Designed for residential use, this modular lithium-ion battery offers scalable. The battery Huawei LUNA2000-5-E0 is a modular solar battery 5 kWh, developed for increase the efficiency and autonomy of photovoltaic systems. This module provides the actual storage capacity, but requires the corresponding LUNA2000-5KW-C0 controller to operate. Huawei BMS for Luna series battery. It is possible to use up to 2 units in parallel (connected to each other via RS485 bus) to reach the maximum.

Huawei energy storage battery each 5 kWh

Huawei LUNA2000-5-E0 battery module - 5 kWh energy storage

Huawei LUNA2000-5-E0 is a reliable, expandable and safe battery module that can be the key to energy independence for family homes. The module, together with the LUNA2000-5KW-C0 controller, forms ...
