

Huawei solar battery cabinet discharge

Overview

In this video, we walk you through how to identify and solve common causes of battery discharge issues in Huawei residential PV + ESS systems — helping restore normal operation quickly and safely. Most of the time under normal operation HA reports this as having a value of 6. If I manually force Discharge of battery via the app and observe the entity via HA the value changes. This document describes the installation, electrical connections, commissioning, and troubleshooting of the LUNA2000-(215-2S10, 215-2S12) Smart String Energy Storage System (also referred to as ESS). Specifies the end-of-charge SOC.
