

# Huijue DC inverter structure

## Overview

---

Its core components include: DC Side: Manages input from batteries via busbars, capacitors, and inductors. Huijue Group's next-generation home energy storage inverter system perfectly integrates the solar inverter, lithium-ion energy storage battery, and energy management system. The solar inverter, as the core component, is responsible for converting the DC electricity generated by the solar panels. Huijue Group was founded in 2002, is leading Inverter Manufacturer in China, to provide customers with the optimal energy storage system solutions and safe and efficient storage full range of products, covering household energy storage system, industrial and commercial energy storage system and. The core consists of three parts - photovoltaic power generation, energy storage batteries, and charging piles. When needed, the energy storage battery supplies the. Step into a new level of energy control with the 10kW Single-Phase Hybrid Energy Storage Solar Inverter from Huijue Group. This all-in-one design brings numerous notable advantages.

## Huijue DC inverter structure

---

### **HI30N/3KW, HI50N/5KW Off-Grid Solar Inverter**

Provide up to 9 units parallel and single-phase/three-phase configuration options. Inverter full-bridge technology can cope with various complex appliances in the home. Wall-mounted and rack-mounted

---

### **10kW Single-Phase Hybrid Energy Storage Solar Inverter**

Huijue Group's 10kW single-phase hybrid solar inverter. Achieve 98% efficiency, 160% DC oversizing, and <10ms UPS backup for superior home & commercial energy independence.
