

Hungary microgrid energy storage

Overview

The Hungarian government has launched a residential energy storage program with a budget of HUF 100 billion. 5 million to support the purchase. Hungary has 40MWh of grid-scale BESS online today but that will jump 3,400% to around 1,300MWh over the next few years thanks to opex and capex support. Hungary has officially announced a large-scale residential battery energy storage subsidy program, signaling a major acceleration of energy storage deployment across Central and Eastern Europe. Author: Centre for Alternative Technology. The European Commission has approved a €1. The scheme was approved under the State aid Temporary Crisis and Transition Framework, adopted by the.
