

Investment in Ultra-Large Capacity Mobile Energy Storage Containers

48V 100Ah

Overview

Today, the company unveiled a 20-foot-tall energy storage system (ESS) called the TENER Stack, which, according to CATL, offers breakthroughs in storage capacity, deployment flexibility, safety, and transportation efficiency. It also has the energy storage capabilities to charge 150 EVs. This innovation marks another milestone for CATL in the energy storage sector, following. At CES Europe 2025 in Munich, CATL debuted the TENER Stack, the world's first mass-producible 9MWh ultra-large capacity energy storage system.

Investment in Ultra-Large Capacity Mobile Energy Storage Containe

CATL Launches World's First 9MWh Ultra-Large Capacity TENER ...

"To meet the expectation of a BESS system that has high energy density, small footprint, simpler AC-side configuration, and flexible deployment, we bring the latest CATL TENER energy ...
