

# Jamaica mobile energy storage charging equipment

## Overview

---

Motorists can now confidently drive from one end of the island to the other, knowing that there is always an EV charging station in close range. JPS' expanding Charge 'n Go locations can be found in the following parishes: Portland, Kingston & St Andrew, St Ann, St James, Westmoreland. GSL Energy, a leading energy storage solutions provider, has successfully deployed three 14.34 kWh floor-to-floor lithium iron phosphate (LiFePO<sub>4</sub>) energy storage systems in Jamaica. Integrated with SRNE inverters, these systems deliver a powerful and efficient solution to Jamaica's challenging. Kingston, Jamaica - Thursday, : The Jamaica Public Service Company (JPS) is stepping up its efforts to transform mobility in Jamaica with the expanded rollout of its Charge 'n Go network—already the most widespread public EV charging solution in the country. Residential grid tied, off-grid homes, and cabins, solar panel kits and. Battery energy storage systems (BESS) are now emerging as a cornerstone technology to address these challenges—helping Jamaica stabilize its grid, unlock more renewable energy, and reduce electricity costs for both consumers and businesses. The country's electricity cost can reach as high as \$0.
