

Jinko 635w photovoltaic panel size

**FLEXIBLE SETTING OF
MULTIPLE WORKING MODES**

Overview

The mechanical characteristics include dimensions of 2382x1134x35mm, weight of 28.2kg, and a front glass thickness of 3.2mm with anti-reflection coating. The frame is made of anodized aluminum alloy, and the junction box has IP68 rated protection class II. Better light trapping and current collection to improve module power output and reliability. Certified to Jinko Solar Panel 625W 630W. Power (Pmax) Jiangsu Jingke'Ao Technology Co. Product Documentation Certifications & Qualifications Questions about this product?

. The Jinko 635W Solar Panel from the Tiger Neo 66HL4M-V series is designed with cutting-edge N-type monocrystalline technology. 51%, it provides a highly efficient solution for both commercial and residential. See the table below for available information we have about Jinko Solar Co Ltd JKM635N-66HL4M-BDX solar panels. If you order the mainstream solar panel --- cell size 166*166mm or 182mm*182mm (210*210mm will soon becoming popular), cell number 54pcs,60pcs, 72pcs, watt :365-670W), you can get the lower price.
