

Jinneng photovoltaic panel 445 watt specifications

**51.2V
200Ah/300Ah
LiFePO4 battery**

Overview

Jinko's JKM445N-54HL4R-V-B has a capacity of 445 watt-peak with 108 HC-NT cells. The solar panels are mounted in an all-black frame and are 1762 x 1134 x 30mm each. Snow Load (Pa) Fire Rating Junction Box & Connector Protection Grade 158. 375 Mono 1684*1002*35/40 1689*996*35/40 18. reference product only datasheet and are do subject not refer to change to only one without module. Product is no longer manufactured. Jinneng Clean Energy Technology Ltd. Solar Panel Series JNMM144-445~455 (AU Market). Detailed profile including pictures, certification details and manufacturer PDF . 5 busbar solar cell adopts new technology to improve the efficiency of modules, offers a better aesthetic appearance, making it perfect for rooftop installation. Higher module conversion efficiency (up to 20. 58%) benefit from half cell structure(low resistance characteristic). Known for reliability, efficiency, and durability, these panels come in several advanced configurations: monocrystalline, polycrystalline, and half-cell designs. Series Fuse Rating (A). Bifaciality>85%, backside power generation. N-type combination silicon contributes and amorphous to excellent silicon temperature coefficient performance, extremely and low low light degradation.

Jinneng photovoltaic panel 445 watt specifications

High efficiency mono solar module JNMM144-445~4

QUALIFICATION ELECTRICAL
PARAMETERS Module Type JNMM144-445
JNMM144-450 144- * Measurement
tolerance: Pmax:±3%, Voc:±3%,
Isc:±5%. I-V CURVE(450W)
