

Juba Battery Energy Storage Project

All In One
Integrating battery packs

Intelligent Integration
integrated photovoltaic storage cabinet

High-capacity
50-500kWh

Rated AC Power
50-100kW

Degree of Protection
IP54

Altitude
3000m(>3000m derating)

Operating Temperature Range
-20~60°C(Derating above 50 °C)

Overview

The 20 MW solar PV plant, located in Juba, the capital city, will have a 14 MWh battery energy storage system & will connect 16,000 households in the world's least electrified country. This project marks South Sudan's first public-private partnership (PPP) in the renewable energy. Ezra Group, a South Sudanese family-run conglomerate, last month announced the launch of South Sudan's first major renewable energy project. The South Sudan's solar power project reportedly marks a milestone in Juba's transition to sustainable power. The Ezra Group, a leading business conglomerate. The East African country has an electricity access rate of 8.4% (as of 2022) Image: The recently launched 20MW solar energy plant in South Sudan. The solar farm is under development by a consortium comprising Elsewedy Electric Company of Egypt, Asunim Solar from the United Arab Emirates (UAE) and I-kWh Company, an energy consultancy firm also based. In the heart of Africa's newest nation, the Juba Shared Energy Storage Power Station stands as a beacon of energy innovation.

Juba Battery Energy Storage Project

Ezra Group Powers Ahead with Renewable Energy in South Sudan

The Ezra Group, a leading business conglomerate, announced the successful launch of the 20-Megawatt (MW) solar power plant and the 14-Megawatt (MWh) Battery Energy Storage ...
