

# Kenya's special energy storage battery companies

## Overview

---

KenGen has commissioned its first Battery Energy Storage System (BESS) in Nairobi to power its modular data center, ensuring uninterrupted renewable energy supply. Chloride Exide specializes in high-quality batteries, including automotive and solar options, as well as power-backup systems. Their commitment to sustainable energy solutions is highlighted through their Chloride Solar division, which offers both solar grid-tie and off-grid systems. Today, as a vertically integrated energy. Kenya is rapidly emerging as one of Africa's leading renewable energy markets, driven by government initiatives and growing demand for solar battery storage and off-grid solutions. Make full use of your investment and maximise business value by implementing intelligence with this solution. KenGen is the leading electric.
