

Kenya solar energy storage investment

Overview

Kenya is accelerating solar energy deployment and energy storage integration as Intersolar Africa 2026 officially opened in Nairobi, bringing together policymakers, investors, developers, manufacturers, and clean energy leaders from across Africa and beyond. In a speech, Kenya currently has approximately 210 MW of grid-connected solar, accounting for 6. More than 100,000 customers are connected through solar mini-grids, and over two million solar home systems are sold annually, positioning Kenya as one of Africa's most. Kenya has reaffirmed its commitment to accelerating solar energy deployment and integrating energy storage systems as part of efforts to strengthen grid reliability and meet rising electricity demand. Speaking during the official opening of Intersolar Africa Confress 2026. ication, e-mobility, and grid modernisation. With a grid 92% powered by renewables and targets of 100% clean.
