

# Labeling of battery cabinet automatic production line

## Overview

---

These standards mandate that battery packs must be labeled with information about the battery chemistry, rated voltage, rated capacity, and warning signs regarding potential hazards such as overcharging, short - circuiting, and exposure to high temperatures. Automatic Battery Cell Packing Line integrates the whole process: battery feeding, testing, bundling, packaging, labeling and QR printing. High speed (40 cartons/minute), safe, flexible with smart monitoring software E-Factory. Solution to optimize. Bosch Rexroth is ready to meet those challenges, combining deep battery manufacturing expertise with complete factory automation solutions, tailored to meet complex battery production requirements (heavy loads, clean room/dry room conditions, no metal or copper, etc. In this blog, we'll explore how smart design and automation can help you break through the bottleneck. These systems are scalable, adaptable to different battery formats, and ensure reliable production processes.

## Labeling of battery cabinet automatic production line
