

# Large-capacity bulk procurement of intelligent photovoltaic energy storage containers

## Overview

---

Prepared for the California Public Utilities Commission under commission by the California Public Utilities Commission. Sunway ESS battery energy storage system (BESS) containers are based on a modular design. They can be configured to match the required power and capacity requirements of client's application. Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage. On June 1, 2022, Governor Kathy Hochul announced the launch of New York State's first bulk energy storage competitive solicitation. Kathy Hochul, the governor of the East Coast US state, announced the launch of the first of three Bulk Energy Storage requests for proposals (RfPs) earlier. This document sets forth for public review and consideration by the New York Public Service Commission (the "Commission") a proposed Implementation Plan for a new Bulk Energy Storage (BES) Program to be administered by the New York State Energy Research and Development Authority (NYSERDA), as chapter offers procurement information for projects that include an energy storage component. The material provides guidance for different ownership models including lease, Power Purchase Agreement (PPA), or Owner Build and Operated (OBO). It also includes contracting strategies for OBO projects.
