

Large solar power supply with storage container

Overview

These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells — with optional diesel redundancy when regulatory or client requirements demand it. MOBIPOWER containers are purpose-built for projects where energy demands go beyond what a trailer can deliver. Unlike standard solar panel containers, LZY's mobile unit features a retractable solar panel. We are a professional manufacturer of integrated solar container systems. By delivering clean, accessible electricity, we support sustainable communities and contribute to a healthier. Available in both 20ft and 40ft variants, these innovative containers are designed to revolutionize the way we harness and utilize solar power. Microgrid system sizes range from 4 kW to 60 kW of PV per 20-foot shipping container, with the flexibility to link multiple.

Large solar power supply with storage container

Large folding solar power box

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems.
