

# Liquid Flow Battery Lightning Protection for Iraqi Communication Base Stations

## Overview

---

In this article, we break down the key requirements of the industry standard YD5068-98 – Code for Design of Lightning Protection and Grounding of Mobile Communication Base Stations, and explain how KDST Outdoor Telecom Cabinets help mitigate lightning risks effectively. Where is Bandar Seri Begawan located?

Bandar Seri Begawan is located at latitude 4. It is part of Asia and the northern hemisphere. Mobile base stations depend. The planning and realisation of new mobile communications sites as well as the conversion and expansion of existing network infrastructure are important steps to meet the increasing demand for transmission capacities and network availability.
