

Lisbon invests 8 billion to build a large solar battery cabinet project

Overview

Lisbon-based Endesa subsidiary Newcon40 Unipessoal Lda is developing the Sol de Évora Photovoltaic Solar Plant which would include a 240.44 MWh battery energy storage system (BESS). The projects listed for public feedback on the government's consultation portal include two solar-plus-storage sites. Two solar-plus-storage projects are among five planned renewable energy sites whose details have been published for public consultation on the Portuguese Environment Agency's. Galp, a Portuguese energy company, has announced plans to build a 5 MW/20 MWh battery storage system in Portugal, in collaboration with Powin. The system at one of Galp's solar plants will enable it to adjust its PV production profile and meet its energy requirements. [pdf] [FAQS about Lisbon. The renewable energy landscape in Portugal is moving into a new phase, marked by stronger commitments from international investors and the integration of storage technologies into large-scale solar projects. By Paulo Lopes, in Business · 26 Aug 2025, 09:31 · 0 Comments A clear example comes from Lisbon's iconic yellow trams zipping through streets powered entirely by stored solar energy. While we're not quite there yet, the Lisbon Energy Storage Project Bidding process for 2025 could make this vision a reality. As Europe's first major urban battery storage initiative of its scale, it's. Portugal's electricity network is undergoing a quiet revolution.
