

Lithium power station factory in gabon

Overview

Gabon's Owendo Mineral Port is advancing its low-emission goals with a \$2.6 million investment from British International Investment to install a 1.56 MWp solar power system and a 1 MW battery storage system. Lithium-ion batteries offer 90-95% efficiency compared to 70-85% for lead-acid alternatives. Specific opportunities include: EK SOLAR's modular battery design allows flexible capacity expansion - a crucial transformation for Gabon solar energy storage. Our products revolutionize energy storage it can supply power to 225000 households for 4 hours.
