

# Low-pressure integrated energy storage cabinet for the catering industry

## Overview

---

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO<sub>4</sub>) batteries with scalable capacities, supporting on-grid and off-grid configurations for reliable energy storage solutions. Supports. Multi-dimensional use, stronger compatibility, meeting multi-dimensional production and life applications High integration, modular design, and single/multi-cabinet expansion Zero capacity loss, 10 times faster multi-cabinet response, and innovative group control technology Meet various industrial. Wenergy provides fully integrated, outdoor-rated ESS cabinets using LiFePO<sub>4</sub> technology with modular design and robust safety architecture. Our solutions are engineered for long-term operation, scalable expansion, and seamless integration into existing commercial and industrial power systems. One energy storage cabinet consists of inverter modules, battery modules, cloud EMS system, fire suppression system, and air-conditioning system, which can be installed both indoors and outdoors. All-in-one design. Huijue proudly presents its revolutionary Energy Cabinet, a pioneering energy storage solution that redefines industrial power backup and management.
