

# Malta steps up energy storage research and development

## Overview

---

Addressing the intermittency of renewable sources, Malta is investing in energy storage solutions and grid modernization. Innovative battery technologies, including grid-scale storage systems, are being explored to ensure a reliable and stable supply of renewable energy. Malta Inc., a leader in long-duration energy storage, today announced that it has closed on a round of financing provided by a group of investors including Siemens Energy Ventures and Alfa Laval as well as existing shareholders Breakthrough Energy Ventures, Proman, Chevron Technology Ventures, and J- Germany- Malta Hochttemperatur Wärmepumpen Stromspeicher GmbH, an affiliate of Malta Inc, a global leader in long-duration energy storage, announced the groundbreaking of the expansion of DLR's world-leading test facility for thermal energy storage in molten salts (TESIS) for the. 16 offers made for development of Malta's first large-scale. The government has received 16 offers for the development of Malta's first large-scale utility battery energy storage systems, Minister for the Environment, Energy and Public Cleanliness Miriam Dalli told The Malta Independent. Malta plans to deploy its energy storage system on an international scale after receiving funding from Siemens Energy, Alfa Laval, and additional shareholders. This Special Issue has attracted.
