

# Middle east solar and energy storage power station project

 **TAX FREE**    

## ENERGY STORAGE SYSTEM

**Product Model**  
HJ-ESS-215A(100KW/215KWh)  
HJ-ESS-115A(50KW 115KWh)

**Dimensions**  
1600\*1280\*2200mm  
1600\*1200\*2000mm

**Rated Battery Capacity**  
215KWH/115KWH

**Battery Cooling Method**  
Air Cooled/Liquid Cooled

The image shows a tall, grey Energy Storage System (ESS) unit. It features two vertical green stripes running down the center. At the top right, the letters 'ESS' are printed in green. In the middle, there is a blue hexagonal shape with a black lightning bolt symbol inside. At the bottom, there are two yellow triangular warning symbols with lightning bolts, one on each side. The unit is mounted on a black base.

## Overview

---

The roughly AED232 billion (US\$5.2 billion) of solar PV with a 19GWh battery energy storage system (BESS), which Masdar claimed was the “largest and most technologically advanced system of its kind in the world.” The project is expected online in 2025. The Emirati state-owned renewables developer Masdar has begun construction on a giant solar-plus-storage project in Abu Dhabi. This “giga-project,” developed by Masdar in partnership with Abu Dhabi Future Energy Company (ADFEC), is a testament to the region's determination to lead the global transition to sustainable energy while highlighting the urgent need for skilled professionals to build and operate these initiatives. Emirati Renewable energy company Masdar (Abu Dhabi Future Energy Company) and Emirates Water and Electricity Company (EWEC) are developing the trailblazing solar and storage project. Abu Dhabi Future Energy Co.
