

Modular outdoor cabinetized type for highway network connection

Overview

As MSOs move out into smaller, cabinet arrangements that support a mix of active (power, battery and nodes) and passive equipment (fiber terminations and splitters), modular enclosures allow for mix-and-match compartments to fit site requirements. When your network infrastructure demands reliable outdoor protection, American Products delivers weatherproof telecom enclosures engineered for performance and built to last. Designed to save deployment cost and time, our innovative solutions include hub collapse, battery backup, composite. Westell is a collaborative partner in OSP deployment optimization providing customized, fully integrated, vendor neutral outdoor network equipment enclosures.
