

Moldova new energy solar panel price

Overview

Cost of solar panels Moldova varies widely depending on panel type and installation size, averaging around 7,000 to 12,000 EUR for a typical household system. With average sunlight hours ranging from 1,900 to 2,300 annually, solar power offers a viable solution for both residential and commercial energy needs. But what factors influence prices of photovoltaic panels in Moldova?

Let's break it down. Import taxes and logistics: Most panels are imported. To stimulate investment, the state will provide the winners—selected based on the lowest bid price—with the guarantee of a fixed electricity price for a period of 15 years.
