

Monaco integrated energy storage cabinet 200kW product warranty

Parallel (Parallel operation up to 6 unit (only with battery connected))

AC input wires

AC output wires

Overview

Question 2: What is the warranty period, and how many years?

Answer 2: The warranty period for batteries and inverters is 5-10 years, and the warranty period for photovoltaic panels is 25 years. This means you can meet the needs of large-scale applications without limitations, such as powering communities or supporting commercial projects. It stores off-peak electricity during low-demand periods and discharges during peak times to "fill the gap," helping to smooth. The C&I ESS Battery System is a standard solar energy storage system designed by BSLBATT with multiple capacity options of 200kWh / 215kWh / 225kWh / 245kWh to meet energy needs such as peak shifting, energy back-up, demand response, and increased PV ownership. How to use To use an integrated energy storage cabinet, install batteries and related. Adopting the "all-in-one" integration concept, the lithium iron phosphate battery, battery management system BMS, energy storage converter PCS, energy management system EMS, air conditioner, fire protection and other equipment are integrated in the energy storage outdoor cabinet.

12.BV6Ah

Nominal voltage (V):12.8
 Nominal capacity (Ah):6
 Rated energy (WH):76.8
 Maximum charging voltage (V):14.6
 Maximum charging current (A):6
 Floating charge voltage (V):13.6~13.8
 Maximum continuous discharge current (A):10
 Maximum peak discharge current @10 seconds (A):20
 Maximum load power (W):100
 Discharge cut-off voltage (V):10.8
 Charging temperature (°C):0~+50
 Discharge temperature (°C):-20~+60
 Working humidity: <95% R.H (non condensing)
 Number of cycles (25 °C, 0.5C, 100%doD): >2000
 Cell combination mode: 32700-4s1p
 Terminal specification: T2 (6.3mm)
 Protection grade: IP65
 Overall dimension (mm):50*70*107mm
 Reference weight (kg):0.7
 Certification: un38.3/msds
