Overview

. We have a new, mobile friendly design and more improvements on the way!
Moving?

Let us know beforehand. Enroll in a budget plan to spread your projected annual energy. The entire New York statewide electricity system will undergo dramatic changes as it evolves to become a zero emissions grid by 2040. We're transforming our energy networks in New York and Massachusetts to deliver reliable, resilient energy to more than 20 million people. We're upgrading to smart meters - offering you convenience, more control, and expanded choice in understanding and managing your energy use. Each map provides the location and specific information for selected electric distribution lines and associated substations within the National Grid NY electric service.
