

# Nairobi solar Power Generation and Energy Storage Prospects

## Overview

---

According to Cynthia Angweya-Muhati, CEO of the Kenya Renewable Energy Association (KEREAA), Kenya's solar market in 2026–2027 will be driven by C&I systems, productive-use applications, energy storage, and circular-economy solutions, supported by policy reform and. According to Cynthia Angweya-Muhati, CEO of the Kenya Renewable Energy Association (KEREAA), Kenya's solar market in 2026–2027 will be driven by C&I systems, productive-use applications, energy storage, and circular-economy solutions, supported by policy reform and. NAIROBI, Kenya, Feb 3 – Kenya has renewed its call for faster deployment of solar energy and battery storage as Intersolar Africa 2026 officially opened at the Sarit Expo Centre in Nairobi, bringing together policymakers, investors and clean energy players from across Africa and beyond. In a speech. East Africa is emerging as one of the world's most dynamic regions for solar power and battery storage. On 3–4 February 2026, Intersolar Africa will take place at the Sarit Expo Centre in Nairobi, expanding from the successful Intersolar Summit Africa in 2025 into a full international exhibition. Kenya currently has approximately 210 MW of grid-connected solar, accounting for 6.5 per cent of installed electricity capacity. More than 100,000 customers are connected through solar mini-grids, and over two million solar home systems are sold annually, positioning Kenya as one of Africa's most. Kenya has reaffirmed its commitment to accelerating solar energy deployment and integrating energy storage systems as part of efforts to strengthen grid reliability and meet rising electricity demand. In a speech read on his behalf, Energy.
