

# Namibia power station energy storage equipment manufacturer

## Overview

---

NamPower, Namibia's state-owned power utility, has signed a contract with a Chinese joint venture to build the first utility-scale battery energy storage system (BESS) in the country and the Southern African region. A battery storage system such as the KfW funded 54MW / 54 MWh Omburu BESS Project can fulfil a multitude of tasks related to the challenges of the integration of RE and is ideally suited to support the sustainable development of the Namibian electricity sector. As the project is the first of its. Namibia's growing demand for reliable off-grid power solutions has fueled innovation among mobile energy storage power supply manufacturers. With abundant solar resources and remote communities, the country presents unique opportunities for companies specializing in portable battery systems and. A landmark 45 MW / 90 MWh battery project in Namibia begins procurement with World Bank backing. The Namibia Power Corporation (NamPower) has opened the Initial Selection stage for the engineering, procurement, and construction of the 45 MW / 90 MWh Lithops battery energy storage system (BESS). This facility specializes in manufacturing advanced battery storage systems designed to stabilize solar and wind power grids. This is the first power storage project in Namibia.
