

# New Energy Photovoltaic Panel Scam

## Overview

---

The scams vary, but here's the gist: someone claiming to be with the government or your utility company promises big savings on your utility bills from solar energy or other home improvements designed to increase energy efficiency. Find a solar panel installer today! Whether it's door-to-door or online, a forceful salesperson might inform you that a certain deal, like a financing rate or an incentive program, will only remain available. We'll walk you through the most common solar scams, the red flags that should make you pump the brakes, and how to find installers you can actually trust. Disclaimer: This article is intended to provide an informational overview of consumer protections for interested homeowners. It's not intended. Are solar panels a scam?

Solar panels themselves are not a scam. When the sun shines on solar panels, they produce electricity that can be used to power appliances and devices in your home. These bad actors prey on homeowners' lack of knowledge about solar technology.sumer complaints about a small number of unscrupulous solar companies. gov/state-consume purchase agreement, or subscribing to a community solar.
