

Overview

#diyvan #vanbuild #automobile Hein shows how to mount solar panels to a midroof Transit van roof using our new V2 mount brackets and angle rails. Shop all our products for Transit vans. A roof rack is a great way of adding real estate to the roof of your Ford Transit, Sprinter van, or Ram ProMaster! It's also a safe and easy way to attach accessories such as solar panels, storage box, awning, etc. These panels are 58" wide. It offers a modular setup that provides flexible options for installing solar panels and other accessories. That would be the lowest profile mount possible.
