

Niue energy storage policy updates

Overview

With the upcoming reintegration of the BESS and solar farms by December, Niue is poised to move closer to its goal of 80% renewable energy production by the end of 2025. The Ministry now has both old and new power stations available to ensure consistent energy delivery to all. The project will contribute to the Government of Niue's target of 80% renewable energy. The Niue Renewable Energy project currently being constructed near the airport comprises a 2.79MWp photovoltaic solar array. The journey began in 2020 through the support of the Australian Department of. The Government of Niue and the United Nations Development Programme (UNDP), through its Multi-Country Office for Cook Islands, Niue, Samoa and Tokelau, convened the Niue National Energy Summit 2025 on 7-8 July at the Matavai Resort, bringing together government leaders, regional partners, community. This project aims to enable Niue to generate 80% of its electricity from renewable energy by December 2025. This project aims to enable Niue to generate 80% of its electricity from renewable energy by. Alofi, Niue - 08 July 2025 - The Ministry of Infrastructure, through the GEF-funded AREAN Project, in partnership with the United Nations Development Programme (UNDP), is currently hosting Niue's Second National Energy Summit, which commenced on Monday 7 July 2025.
