

No-punch photovoltaic bracket block

No-punch photovoltaic bracket block

Introduction to Non-Penetrating Solar PV Mounting Systems

In summary, the Non-Penetrating Solar Mounting System provides a reliable and efficient solution for installing solar panels on flat roofs and on the ground without compromising their integrity.

-  **Efficient Higher Revenue**
 - Max. Efficiency 97.5%
 - Max. PV Input Voltage 600V
 - 150% Peak Output Power
 - 2 MPPT Trackers, 100% DC Input Utilizing
 - Max. PV Input Current 15A, Compatible with High Power Modules
-  **Intelligent Simple O&M**
 - IP66 Protection Degree: support outdoor installation
 - Smart 1 V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
 - DC & AC Type II SPD: prevent lightning damage
 - Battery Reverse Connection Protection
-  **Flexible Abundant Configuration**
 - Plug & Play, EPS Switching Under 20ms
 - Compatible with Lead-acid and Lithium Batteries
 - Max. 6 units Inverters Parallel
 - AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation

Best No Drill Solar Panel Mounting System [Updated: December 2025]

Unlike brackets that require screws or adhesives alone, this system creates a solid stud point without drilling into surfaces. It's versatile, easy to customize with your own bolts, and made in ...
