

# Nongji brand photovoltaic panels

## Overview

---

LONGi has two main series of solar panels: Hi-MO 4, and Hi-MO 5, which have a variety of different options to suit residential, commercial and utility-scale projects. LONGi offers half-cut and bifacial monocrystalline panels made with laser-grooved PERC cells. At the key node of intergenerational transition of global Photovoltaic (PV) technology, the back contact (BC) cell technology is leading the new-generation PV technology paradigm revolution, becoming the core engine to drive industry cost reduction and efficiency improvement and realize energy. The company is committed to providing sustainable energy solutions around the world to promote the popularization and application of clean energy. Don't hesitate to contact us for better help and service. Explore more Since its establishment, the company has adhered to innovation-driven. Longi is the world's leading solar manufacturer, consistently making Top-10 solar brands. Backed by advanced technologies, LONGi solar panels feature excellent power ratings and top conversion efficiencies, and can be used across all market segments.
