

Off-grid solar-powered container for emergency relief in Eastern Europe

Overview

OffGridBox technology caters to households and institutional buildings such as health clinics and schools, it powers productive use, and can be installed in humanitarian settings, like refugee camps or post-disaster situations. A 6-foot shipping container that produces electricity. Emergency Power Containers, also referred to as containerized solar energy systems or foldable PV storage containers, have become the go-to solution for disaster recovery zones, off-grid campuses, and mobile telecom networks. Ecos PowerCube ® is a patented, self-contained, self-sustaining, solar-powered generator that uses the power of the sun to provide energy, communications, and clean water to the most remote, off-grid. Solar power containers have emerged as an effective and mobile energy solution that brings electricity to areas where the grid is damaged or nonexistent. In the past, diesel generators were often used, but they caused fuel supply issues and heavy emissions. If playback doesn't begin shortly, try restarting your device. Videos you watch may be added to the TV's watch history and.
