

Ottawa electricity rates

Overview

The average electricity bill in Ottawa is about \$102 per month for a household, depending on home size and energy efficiency. Monthly hydro costs for an apartment might be less than for a larger home. Eligible residential and net metering customers on the Regulated Price Plan (RPP) can choose between three types of electricity rates. The Ontario Energy Board sets these rates once a year on November 1. There are three Time-of-use periods - on-peak, mid-peak and off-peak. Residential • Commercial • Green / Renewable For over 20 years, Just Energy has been delivering low-cost, reliable electricity and natural gas to our US and Canadian customers.
