

PV salesperson gets commission for each panel

Overview

They typically earn a commission on each sale they make. So, if a solar salesman sells a \$10,000 solar system, he or she will earn a \$1,000 commission. It varies based on deal size, structure, company model, and your ability to navigate a system that rewards strategy over effort alone. But once you understand how the math works, you unlock the tools to shape your income ceiling. This is the simplest and most common approach: paying a fixed percentage of each sale's value as commission. Revenue-based. Sales commissions are crucial in this industry, as they motivate sales teams to effectively engage with customers.
