

# Photovoltaic Energy Storage Government Work Report

## Overview

---

NREL is a national laboratory of the U. Department of Energy Office of Energy Efficiency & Renewable Energy Operated by the Alliance for Sustainable Energy, LLC This report is available at no cost from the National Renewable Energy Laboratory (NREL) at [www.nrel.gov](http://www.nrel.gov). This report describes development of an effort to assess Battery Energy Storage System (BESS) performance that the U. DE-AC02-05CH11231 (Award Number 38425). Neither the United States Government, nor any agency thereof, nor any of their employees, nor any of their contractors, subcontractors, or their employees, make any warranty, express or implied, or assume any legal liability. Energy storage is a fast-growing resource that helps balance energy supply and demand, save money, facilitate carbon pollution-free energy, and increase resilience. knowledge, services and resources (including stored energy). electricity grid connects more than 11,000 power plants with around 158 million residential, commercial, and other consumers.
