

Photovoltaic base support process flow chart

Overview

The document outlines the 12 step process flow for achieving synchronization of a solar power plant with the grid and commencing commercial operations, including: 1) submitting documents to the local grid company after signing a power purchase agreement. When sunlight hits the solar cells in a PV system, it excites the electron in the cells and generates a flow of electric current. This process is known as the photovoltaic effect. All of the above documents can be found on the web at (<https://www.gov/565/Solar-PV-System-Installation-Procedures>). After review, ALW provides a Release Form to the Customer/owner in a solar power installation.

Photovoltaic base support process flow chart

Photovoltaic Base Support Process Flow Chart: A Step-by-Step Guide ...

This is where our process flow chart turns into a choreographed dance. We've perfected the "solar slide" - moving panels into position without dropping tools or lunch breaks.
