## Photovoltaic inverters are connected to the grid without permission

---

### Grid ties solar without a permit- Payperwatt

To backfeed the excess power generated from grid-tie solar power plants, plant owners required permits from utility companies along with the net meters. With ZED Advance solar plant owners can ...

### On grid without utility consent. , DIY Solar Power Forum

If you have an inverter that cannot backfeed at all (most offgrid types) then you won't have any. It simply is a load manager, pulling from solar, batteries, or grid to power whatever is connected to it.
