

Photovoltaic panel anti-leakage pressure strip

Overview

It features high temperature resistance, UV protection, corrosion & rain resistance, and anti-aging & dust prevention. It is durable and supports customization based on drawings or samples. The global market for photovoltaic sealing strips is experiencing robust growth, driven by accelerating solar energy adoption. This expansion correlates directly with worldwide solar. Superior Waterproof Sealing: This T-shaped EPDM rubber strip ensures a watertight seal for solar photovoltaic brackets and electric cabinets, preventing water ingress and protecting components from moisture damage in harsh outdoor conditions. Featuring T shape, it effectively covers wide gaps and enhances waterproof performance, while boasting both flexibility and reliability. It is. Made of high quality EPDM material with excellent resistance to natural weathering, ageing and corrosion.

Photovoltaic panel anti-leakage pressure strip

EPDM Anti-UV T-Shaped Solar Panel Sealing Strip

Weatherproofing Strip, Enhance your solar panel system's efficiency with our EPDM Anti-UV T-Shaped Sealing Strip. This durable, waterproof strip offers superior weather resistance and UV protection, ...
