

Photovoltaic panel packaging solution

Overview

Our solar module pallets and collapsible bulk bins are engineered for real jobsite conditions—reducing waste, cutting breakage, and improving logistics from transport to installation. Your packaging. PVpallet builds reusable, purpose-built packaging for solar modules, trackers, and BOS components. With an increasing demand for lightweight solar panels and the latest technology in solar panels, businesses need that adapts to changing shapes, sizes, and. UFP Packaging specializes in solar packaging and understands the industry globally. Applying that knowledge and expertise, we will partner with you to understand your company's unique packaging needs and develop custom solutions. As a trusted provider of industrial packaging solutions, we offer specialized packaging designed to ensure the safe handling, transportation, and storage of your valuable solar panels. Our plastic corners directly replace the cardboard cartons or wooden boxes still used by many module manufacturers and are a very simple and efficient solution: the corners fit. Innovative packaging isn't just about looking good on the shelf.
