

Photovoltaic panels leaking

Support Customized Product

Overview

This article provides a practical, step-by-step guide to identifying, diagnosing, and addressing solar panel roof leaks, with emphasis on flashing, sealants, maintenance, and warranty considerations. In virtually all cases, the answer is no. Roof leaks after solar panels are extremely rare. Almost always, homeowners will notice the leak. In the worst-case scenario, roof damage from solar panels can even lead to leaking within a home, which could cause further complications and safety concerns for the property and its inhabitants. But don't worry—you're not alone, and this issue is more common than you might think. Imagine investing in a brand new energy solution, only to discover a nightmare later: a poorly installed solar panel system that's left you with a roof leak to fix. Understanding common causes, how to spot problems early, and the best mitigation strategies helps homeowners protect their roof, preserve your investment, and maintain system.
