

Photovoltaic panels manufactured by aerospace

Overview

Sparkwing offers a high value for money, short lead time, easy to integrate solar array from an experienced team and a reliable supply chain. Sparkwing is a product of Airbus Netherlands (Airbus NL). Our product has its foundation built on 40 years' worth of experience providing. Our solar cells and CICs are the highest efficiency commercially available products in the industry offering more than 4MW of power delivered for flight missions. From the compact-class efficiency of Sparkwing arrays, offering up to 200 W/m² for. Spectrolab offers a range of GaInP/GaAs/Ge lattice matched 3J solar cells with efficiencies reaching 32%. Our lightweight arrays have powered a variety of critical missions, including: Photovoltaic subassemblies feature the. We are delivering the next generation of space-stable silicon photovoltaics. Our efficient, reliable, radiation-hardened solutions feature competitive performance and lower cost than III-V multijunction solar products. PLATO (PLANetary Transits and Oscillations of stars mission) mission goal.

Photovoltaic panels manufactured by aerospace

SpaceTech solar arrays for space

SpaceTech has shipped the first four solar array panels for the European Space Agency - ESA PLATO spacecraft mission to Thales Alenia Space. These panels are being developed in a cooperation of ...

Solar Energy in the Aviation Industry

In the context of aviation, solar energy can be harnessed using photovoltaic cells, commonly known as solar panels, which convert sunlight into electricity. Solar-powered aircraft utilize ...
