

Photovoltaic support tube punching

Overview

We did a test run of the Roll punching machine for the photovoltaic support bracket production. It's simple to install and easy operation. The bracket has a strong adjustable ability, high structural strength, beautiful shape, standard bending angle, accurate hole position. * Tracking PV tubes! Advanced Technology! The Tracking PV Support Machines are to make the tube with punching holes used for photovoltaic support. Copyright © 2023 NANTONG RELIANTT MACHINERY CO. Tracking PV Support Machines The Tracking PV Support Machines are to make the tube with punching. Solar water heater support frame production line-Tube support produce Technological flow Material flatting → Straightening→ Feeding→ Tube Hole Punching →Positioning→ Forming→ Holes Punching→ Cutting→ Transfer Processing Material Q195□235, Thickness 1.5mm Production line components 1).

Photovoltaic support tube punching

- LiFePO₄ Battery, safety
- Wide temperature: -20~55°C
- Modular design, easy to expand
- The heating function is optional
- Intelligent BMS
- Cycle Life: > 6000
- Warranty: 10 years

Photovoltaic Support Punching Machine Modification: Optimizing Solar

The solution? Targeted modification of existing punching machines rather than complete replacement - a strategy that reduces capital expenditure by 40-60% while maintaining production ...
