## Overview

---

Solar lease payments range from \$150 to \$200 monthly on average, with most homeowners saving 20% to 40% compared to their previous utility bills. The size of your solar system, home condition, credit score and presence of escalator clauses are key factors that determine your lease price. Solar. Maybe it's time to think about leasing solar panels. But how much does it really cost to lease solar panels, and is it worth it in the long run?

I've noticed that many people are drawn to solar leasing because it offers. Solar leases offer an accessible path to solar—but they're not for everyone.
