

Price of photovoltaic panels over the years kilowatt

Overview

Prices are compiled from three sources: Nemet (2009) for 1975-2003, Farmer & Lafond (2016) for 2004-2009, and IRENA for 2010 onward. Due to limited data availability, we use the Global Price Index series reported by IRENA, based on pvXchange benchmark prices for modules. Average price of solar modules, expressed in US dollars per watt, adjusted for inflation. The current price is and is last updated on.
