

# Price quote for 20-foot photovoltaic shipping containers for base stations in Africa

## Overview

---

Short version: From 2024, it costs between \$2,800 and \$5,500 to ship a 20-foot container of solar panels around the world, depending on origin, destination, fuel prices, and demand. The 40-foot container, which is the one used for larger installations, ranges from \$4,500. Whether you're a solar startup importing your first bulk order from Shenzhen or a do-it-yourselfer outfitting a container home in the Arizona desert, the cost of shipping solar panels in a container is more than just a line item — it can make or break your project budget. This guide is designed. Available in both 20ft and 40ft variants, these innovative containers are designed to revolutionize the way we harness and utilize solar power. 1900 watts of solar on the roof with a Growatt 3000 watt 120/240 inverter. Without the batteries it's self-sufficient with the sun up if you don't have it. Looking to build off-grid power solutions with shipping containers?

Boxhub is the leading provider of new and used shipping containers for solar panel installations and battery storage.
