

Price trend of JA Solar photovoltaic panels in Vietnam

Overview

Decision 988/QD-BCT, issued by the Ministry on Ap, introduces a new solar generation pricing framework in Vietnam. This change affects both traditional and floating solar systems, including those with and without storage solutions. The solar panel market in 2025 is witnessing positive changes with price trends decreasing compared to the previous year. According to market observations, solar panel prices are trending downward thanks to manufacturing technology development and increasingly fierce competition among global. In 2025, solar energy costs in Vietnam are clearly outlined by the Ministry of Industry and Trade's policy decisions. The Market Sizes and Forecasts are Provided in Terms of Installed Capacity. Vietnam Solar Energy Market: By Technology: Solar Photovoltaic, Concentrated Solar Power; By Solar Module: Monocrystalline, Polycrystalline, Thin-Film Solar Modules, Others; By Application: Residential, Commercial and Industrial, Utility; Regional Analysis; Market Dynamics; Competitive Landscape;. The Vietnam solar panel market size reached 1. Looking forward, IMARC Group expects the market to reach 2. The range lies from 0 to.
