

# Private individuals can install solar generators

## Overview

---

Installing your own solar panels can be legal and cost-effective, but navigating the regulations requires careful planning. 8% CAGR through 2030, and guess who's leading the charge?

Surprisingly, 43% of new U.S. homeowners are installing solar. However, any. Whether you are an environmentally conscious individual or simply looking to save on your energy bills, solar power is becoming increasingly popular. However, DIY solar panels are rarely the best decision for a home, and may not be worth it for financial, legal, or safety reasons. Community solar allows multiple people to benefit from a single, shared solar array that can be installed on- or off-site.
