

# Ranking of Photovoltaic Steel Cage Support Manufacturers

## Overview

---

This definitive analysis benchmarks the world's premier solar structure manufacturers based on eight key metrics: technological innovation, global certification portfolio, project deployment scale, market diversification, R&D investment, manufacturing capacity, bankability. This definitive analysis benchmarks the world's premier solar structure manufacturers based on eight key metrics: technological innovation, global certification portfolio, project deployment scale, market diversification, R&D investment, manufacturing capacity, bankability. As the global solar industry approaches 1.5 TW of cumulative capacity, the critical role of mounting structures has never been more pronounced. These solar support structures are an essential part of photovoltaic ground-mounted steel structures for 5-axis light steel structures for 6-axis.

Meta description: Discover the leading C-shaped steel manufacturers for solar mounting systems. Compare production capacity, material innovations, and global certifications - all backed by 2023-24 industry data. You know, over 68% of utility-scale solar projects now use C-shaped steel brackets. On the first day of the conference, PVBL's annual ranking of the Top 20 Global Photovoltaic Module Manufacturers was announced. The revenue of the top 10 module manufacturers exceeded 700 billion yuan and the shipments exceeded 400GW in 2023, almost double the total of the top 20 in 2022. According to Cognitive Market Research, the market is valued at USD 39,624.
